## SUMMARY

I am a Full-Stack Developer with over 4 years of professional experience in web application development, collaboration with design teams, and application optimization. My primary stack is Next.js for the front end and Node.js for the back end. I am confident with Typescript, Javascript, and PHP.

I always learn to keep challenging my problem-solving skills and maintain creativity. I love to learn about everything, particularly technology and programming. Along with that, I also have interests in the Internet of Things (IoT), design, business, and psychology.

## EXPERIENCE

### Full-Stack Developer

12/2022 - Present

VA For Everyone ↗

- Designed and executed client-side and server-side architecture, while maintaining clean code and scalable architecture.
- Collaborated closely with UX/UI designers, resulting in a fast implementation of designs into code.
- Optimized and maintained 5+ web applications, with quick adaption to various stacks and technologies.

### Front-End Developer

10/2021 - 08/2022

uHoo, Pte. Ltd. ↗

- Maintained frontend web applications of uHoo Premium Dashboard and uHoo Partner Dashboards, enabling different users to visualize data using ReactJS.

### Full-Stack Developer

02/2021 - 08/2021

PT. Talenta Indonesia Raya ↗

- Developed and maintained an online psycho-test web application, providing an engaging user experience from taking the test to viewing results in PDF format.
- Maintained backend server to be used by thousands of users concurrently, using PHP, MySQL, and Google Cloud Platform.

## EDUCATION

### Electrical Engineering

2023

Universitas Jenderal Soedirman - Bachelor of Engineering

## CERTIFICATES

### Google Cloud: Develop and Deploy ↗

2024

Google Cloud Skills Boost

### Google Cloud: Cloud Networking ↗
